## TERMS

Deliveries are subject to yield of crops and safe arrival of our consignments and prices subject to change.

While we endeavor to carry ample stock, it is nevertheless impossible to have all seeds listed available at all times. Certain items cannot be stored successfully and are available in season only. Please bear this in mind when you place an order with us.

All seeds and plants are sold without warranty, expressed or implied as to description and productiveness. Seeds should be carefully inspected upon arrival and claims for conditions made at once. We cannot consider claims after seeds have been stored or planted.

All shipments travel at buyer's risk and claims for damages in transit must be taken up with the transportation companies.

Remittances made should include a fair amount for packing and postage, if shipment by mail is requested. Bags are being charged at cost price.

**PACKETS**—We shall be glad to supply packets of all items listed, if possible, and will charge 15c per packet unless listed otherwise.

**TERMS**—5% Discount for cash with order; for customers of approved credit, 10 days 2%; 30 days net.

## SEND IN YOUR ORDER EARLY

Order from this catalogue until you receive a new issue. We shall extend the benefit of lower seasonable prices whenever it is possible to do so.

Copies are gladly mailed upon request.

## FRUIT STOCKS

(Quantity prices upon request)

	¼ lb.	1 lb.	10 lbs.
<b>APPLE</b> , The wood of the <b>Woodapple</b> ( <i>Malus sylvestris</i> ) being of ironlike hardness makes prohibitive its use as stock for domestic apple varieties. The <b>French Cider Crab</b> , a hybrid race between the Woodapple and our Table-Apple ( <i>Malus communis</i> or <i>pumila</i> ) combines the ruggedness of the former with the adaptability of the latter producing a wood which offers little resistance to the knife.			
French Cider Crab, the strain preferred for Apple stock.....	\$ .30	\$ .95	\$8.00
Domestic, seed from cultivated varieties.....	.35	1.00	9.00
Paradise, Dwarfing stock.....70, ¼ oz.; \$2.50 oz.			
<b>APRICOT</b> , Common ( <i>armeniaca</i> ).....	.25	.75	6.50
hardy Mandshurian ( <i>mandshurica</i> ).....	.45	1.50	12.00
<b>CHERRY</b> , Mahaleb.....	.25	.65	6.25
Mazzard, domestic.....	.20	.55	5.00
Mazzard ( <i>sylvestris</i> ) the gum flux resistant silver bark strain.....	.35	1.25	11.00
<b>PEACH</b> , Chinese, wild ( <i>Amygdalus davidiana</i> ) becoming recognized as valuable understock for Peach.			
Seed from Mongolia.....	.50	1.50	
Seed from Japan.....	.30	1.00	9.00
<b>PEACH</b> ( <i>persica</i> ) Domestic, small naturals.....		.15	1.25
<b>PEAR</b> ( <i>communis</i> ) French seed.....	.80	2.85	
Chinese Callery ( <i>calleriana</i> ).....	1.35	4.50	40.00
Late Japanese ( <i>serotina</i> ).....	.60	2.00	18.00
Ussurian ( <i>ussuriensis</i> ).....	.90	3.00	27.50
<b>PLUM</b> , American ( <i>americana</i> ).....	.15	.80	7.50
Damas ( <i>domestica</i> var.).....	.30	1.00	8.15
French ( <i>domestica</i> var.) Reine Claude, most delicious table Plum.....	.25	.75	6.00
German Prune ( <i>domestica</i> var.).....	.25	.75	6.00
Mirabelle ( <i>domestica</i> var.) small ball shaped yellow fruited Plum, delicious cannery variety.....	.25	.75	6.00
Myrobolan ( <i>cerasifera</i> ).....	.20	.60	5.75
St. Julien ( <i>domestica</i> var.).....	.20	.75	6.50
<b>QUINCE</b> , Common ( <i>oblonga</i> ).....	.80	2.75	25.00
For other fruit seed consult Part III under <i>Castanea</i> , <i>Corylus</i> , <i>Diospyros</i> , <i>Hicoria</i> , <i>Juglans</i> .			

## II

## CONIFERS

Plants of Merit (Insufficiently known in the trade):	oz.	¼ lb.	1 lb.
<b>LARIX europaea</b> , European Larch, strain from Scotland, resistant to the leaf shedding disease.....	\$ .40	\$1.10	\$3.75
<b>PICEA hursti</b> , new and rare American Spruce from N. W. Ontario and British Columbia apparently intermediate between <i>Picea canadensis</i> and <i>Picea pungens</i> . In habit similar to the former and often found in specimens equaling in color a good silver foliaged Blue Spruce .80 pkt.; .75 ¼ oz.	2.50		
<b>PSEUDOTSUGA douglasi caesia</b> , a strain from the Interior Northwest, intermediate between <i>glauca</i> and <i>viridis</i> . Originating in typical bad land country with severe winters and extreme heat and drought in summer, this variety is as hardy as <i>glauca</i> . It is much faster growing and has not the tendency to lose its lower branches at an early age. Foliage is of pleasant bluish-green color. A good forest tree to plant where the green form is not hardy and a fine ornamental in place of <i>glauca</i> .....	.50	1.45	4.75
<b>TSUGA caroliniana</b> , Carolina Hemlock, the handsomest American Hemlock of dense bushy habit, hardy as far North as this and farther north if planted in wind-shelter.....	.55	1.60	5.75

## GENERAL LISTING OF CONIFERS

	oz.	1/4 lb.	lb.
<b>ABIES amabilis</b> .....	\$ .30	\$ .85	\$3.00

pisifera filifera.....	.75	2.50	
pisifera plumosa.....	.75	2.50	
pisifera squarrosa.....	1.00	3.20	
<b>CRYPTOMERIA japonica</b> , seed from Japan.....	.15	.35	1.25
japonica sinensis, from China.....	.30	.75	2.50
japonica araucarioides.....	.35	1.00	3.25
japonica elegans.....	.50	1.25	4.25
japonica lobbi.....	.35	.90	3.00
<b>CUNNINGHAMIA lanceolata</b> (sinensis).....	.30	.80	2.50
<b>CUPRESSUS arizonica</b> .....	.35	.90	3.00
funnebris.....	.30	.85	2.80
goveniana.....	.40	1.10	3.75
lusitanica.....	.30	.80	3.00
macnabiana, clean.....	.50	1.25	4.50
macrocarpa.....	.25	.70	2.35
macrocarpa, seed from garden specimens.....	.50	1.75	
sempervirens horizontalis.....		.25	.75
sempervirens pyramidalis (stricta).....		.25	.80
torulosa.....	.20	.60	2.00

	oz.	¼ lb.	lb.
<b>GINKGO biloba</b> , domestic.....		.20	.50
<b>JUNIPERUS chinensis</b> , clean.....	.25	.60	2.00
<b>communis</b> , imported, clean.....	.15	.35	1.25
New England berries.....	.15	.35	1.15
<b>communis canadensis</b> .....	.15	.40	1.50
<b>communis depressa</b> (prostrata).....	.15	.40	1.45
<b>communis montana</b> (siberica) seed from Montana.....	.15	.40	1.45
<b>communis pyramidalis</b> , clean.....	.30	.70	2.50
<b>formosana</b> , Chinese Weeping Juniper, graceful new Juniper said to be hardy North.....	.45		
.....20 ¼ oz.			
<b>horizontalis</b> , a fine hardy Juniper from Montana.....	.25	.60	2.00
<b>japonica</b> .....	.50	1.25	4.50
<b>monosperma</b> .....	.20	.40	1.50
<b>procumbens</b> , clean.....	.30	.70	2.50
<b>rigida</b> .....	.35	1.25	4.25
<b>sabina</b> .....	.20	.50	1.75
<b>scopulorum</b> , seed from Colorado.....	.15	.35	1.35
seed from Montana or Dakota.....	.20	.40	1.50
<b>scopulorum</b> , columnar type, a natural form found in isolated stands in Montana.....	.20	.55	2.00
<b>scopulorum</b> , spreading type, a hardy prostrate form from Montana.....	.15	.40	1.25
<b>scopulorum</b> , seed from selected trees, blue or bright green.....	.20	.50	1.75
<b>virginiana</b> , seed from New England.....	.20	.40	1.50
seed from Tennessee.....	.15	.25	.95
seed from Nebraska, Platte River type.....	.20	.40	1.25
seed from Nursery specimens, clean.....	.25	.65	2.25
<b>virginiana glauca</b> (argentea) New England berries.....	.30	.75	2.50
<b>LARIX europaea</b> , 1000-2000 ft.....	.20	.40	1.50
<b>europaea</b> , large grained seed from Western High Alps, 5000-6000 ft.....	.30	.75	2.50
<b>europaea</b> , seed from Scotland, this strain not being affected by the leaf- shedding disease seems to be the best.....	.40	1.10	3.75
<b>europaea sudetica</b> (polonica) 2000-3000 ft.....	.30	.75	2.50
<b>leptolepis</b> .....	.40	1.10	3.75
<b>occidentalis</b> .....	.40	1.10	3.75
<b>sibirica</b> .....	.50	1.25	4.50
<b>LIBOCEDRUS decurrens</b> .....	.20	.50	1.75
<b>PICEA ajanensis</b> , see jezoensis			
<b>breweriana</b> .....	.50, ¼ oz.	1.50	4.00
<b>canadensis</b> (alba-glauca)—One pound of <b>WHITE SPRUCE</b> seed sown broadcast will plant about 25 yds. of 4 ft. wide bed.			
seed from planted stands.....	.20	.40	1.45
seed from Northern New England or Canada.....	.35	.90	3.00
<b>canadensis albertiana</b> , Black Hills Spruce.....	.45	1.15	4.00
<b>engelmanni</b> .....	.30	.90	3.00
<b>excelsa</b> —One pound of <b>NORWAY SPRUCE</b> seed sown broadcast will plant about 15 yds. of 4 ft. wide bed.			
1. Seed from the Alps.....		.30	.90
2. Seed from Boehmerwald (Bohemian Forest).....		.40	1.25
3. Seed from Harz Mountains.....	.25	.70	2.25
Nos. 2 and 3 are two rugged strains superior in many ways to ordinary seed, preferred by European Foresters and Nurserymen.			
4. Lowland Strain-Northern Europe, exceeding in size and wood production the mountain strains. Seed will produce a superior plant material of dark green color as preferred in landscape work and for use as Christmas trees. Seed is excellently cleaned and of highest germination.....	.25	.70	2.25
5. Seed from France, Vosges Mountains and Black Forest, Germany. The fastest growing strain.....		.45	1.50
6. Seed from Finland. ( <b>P. excelsa borealis</b> ) the hardiest strain, valu- able in landscaping because of its slow growth.....	.30	.80	2.75
<b>glehni</b> .....	.50	1.50	
<b>hursti</b> .....	.25, pkt.; .75, ¼ oz.	2.50	
<b>jezoensis</b> .....	.40	1.00	3.50

	oz.	¼ lb.	lb.
<b>PICEA (continued)</b>			
<i>jezoensis hondoensis</i> .....	.30	.90	3.00
<i>mariana (nigra)</i> .....	.20	1.50	5.00
<i>morinda</i> .....40, ¼ oz.	1.25		
<i>obovata</i> .....	.45	1.25	4.25
<i>omorika</i> .....80, ¼ oz.	2.00	7.50	28.00
<i>orientalis</i> , seed from planted trees in Northern Europe.....	1.00	2.85	7.50
<i>pungens</i> .....	.35	.90	3.25
<i>pungens glauca</i> , Colorado Blue Spruce, from blue stands.....	.40	1.10	3.75
hand picked from blue trees.....	.75	1.80	6.00
hand picked from highly colored specimen trees.....50, ¼ oz.	1.50	4.00	
<i>rubra</i> .....	.45	1.25	4.00
<i>sitchensis</i> .....	.45	1.25	4.00
<i>sitchensis</i> from Alaska.....	.50	1.35	4.50
<b>PINUS aristata</b> .....			
<i>attenuata</i> .....	.25	.70	2.25
<i>banksiana</i> .....	.55	1.50	5.35
<i>banksiana</i> .....	.35	.80	2.75
<i>bungeana</i> , Lacebark Pine, a holy tree of the Chinese planted in temple grounds, bark becomes chalky white on old trees.....	.30	.90	3.00
<i>canariensis</i> .....	.20	.50	1.75
<i>caribaea</i> .....	.25	.85	2.25
<i>cembra</i> .....	.15	.30	1.00
<i>cembra sibirica</i> .....	.20	.40	1.50
<i>contorta</i> .....	.55	1.65	5.00
<i>contorta latifolia</i> , see <i>murrayana</i>			
<i>coulteri</i> .....	.30	.90	2.50
<i>densiflora</i> .....	.15	.30	1.00
<i>echinata</i> .....	.60	1.75	5.50
<i>edulis</i> .....	.15	.35	1.25
<i>excelsa</i> .....	.20	.40	1.50
<i>flexilis</i> .....	.25	.85	3.25
<i>halepensis</i> .....	.15	.35	1.00
<i>jeffreyi</i> .....	.30	.90	2.50
<i>koraiensis</i> .....	.15	.25	.75
<i>koraiensis</i> Northernmost form from interior Manchuria, much hardier than the usual strain from Korea.....	.35	1.00	3.50
<i>lambertiana</i> .....	.20	.50	1.75
<i>leucodermis</i> .....35, ¼ oz.	1.00		
<i>maritima</i> , see <i>pinaster</i>			
<i>massoniana</i> , Chinese Red Pine.....	.20	.60	2.00
<i>montana gallica</i> .....	.40	1.00	3.50
<i>montana mughus</i> .....	.20	.55	2.00
<i>montana mughus</i> , selected dwarf.....	.30	.80	2.85
<i>montana mughus compacta</i> .....	.35	.85	3.25
<i>montana pumilio</i> .....	.30	.90	2.50
<i>montana uncinata</i> .....	.20	.45	1.65
<i>monticola</i> .....	.45	1.00	4.35
<i>murrayana (latifolia)</i> .....	.50	1.40	4.75
<i>nigra (austriaca)</i> seed from Austria—One pound of <b>AUSTRIAN PINE</b> seed sown broadcast will plant about 16 yds. of 4 ft. wide bed.....	.15	.40	1.25
<i>nigra</i> , seed from Southern Scandinavia.....	.35	.90	2.50
<i>nigra calabarica</i> .....	.35	.90	3.00
<i>nigra poiretiana (laricio)</i> Corsican Pine			
seed from planted stands.....	.35	.75	2.50
seed from Corsica, Foret de Valdoniello, 4500-5000 ft.....	.45	1.30	4.25
<i>palustris</i> .....	.15	.40	1.25
<i>parryana</i> , hardy dwarf Pine, fine for specimens.....	.50	1.50	5.00
<i>parviflora (pentaphylla)</i> .....	.30	.75	2.50
<i>patula</i> .....	.80	3.00	
<i>peuce</i> .....	.30	.75	2.50
<i>pinaster (maritima)</i> from inland forests.....		.25	.75
French seed collected from seashore plants only.....	.20	.45	1.50
Corsican seed from high elevation 4500 ft.....	.25	.60	2.00

	oz.	¼ lb.	lb.
<b>PINUS</b> (continued)			
<b>pinea</b> .....	.15	.25	.85
<b>ponderosa</b> , seed from Pacific Coast.....	.15	.45	1.50
<b>ponderosa</b> (scopulorum) seed from Colorado.....	.15	.45	1.50
seed from Black Hills and Northern Rockies.....	.25	.75	2.25
<b>pumila</b> .....	.45	1.50	
<b>radiata</b> (insignis).....	.25	.65	2.10
<b>resinosa</b> .....	.75	1.80	6.50
<b>rigida</b> , New England.....	.40	.90	3.50
<b>sabiniana</b> .....	.15	.35	1.25
<b>sinensis</b> (tabulaeformis), Chinese Pine, attention has turned lately to this beautiful and extremely hardy Pine. A notable ornamental according to the late E. H. Wilson, Chinese seed.....	.35	.90	3.00
<b>strobis</b> —One pound of <b>WHITE PINE</b> seed sown broadcast will plant about 10 yds. of 4 ft. wide bed.			
New England seed.....	.30	.75	2.50
seed from Lake States or Canada.....	.20	.50	1.75
seed from planted stands.....	.20	.50	1.75
<b>sylvestris</b> —A government decree prohibiting collection and distribution of Pine seeds, other than certified as collected from forests recognized by authorities for their pedigree shuts out the importation of all but the best seed from Germany. We are prepared to furnish certified seed of the well known <b>STRAIGHT TIMBER STRAIN</b> of Northern Germany from the following sources.			
Province of Saxony—Elbe River West.....		1.35	4.50
Province of Brandenburg—Elbe River East.....		1.95	6.50
Province of Pommerania—Oder River.....		1.95	6.50
Province of Eastern Prussia—Vistula River East.....		2.25	7.50
<b>sylvestris</b> , from other sources:			
Czecho-slovakia, a fine strain of clear bole timber.....	.20	.55	2.00
Seed from South Central Europe.....	.15	.40	1.25
North-Western Europe—France.....	.20	.45	1.50
Seed from Sweden.....	.40	1.05	3.50
Seed from Latvia or Finland— <b>RIGENSIS STRAIN</b> .....	.35	.90	3.00
Seed from other sources can be supplied upon request.			
<b>tabulaeformis</b> , see <i>sinensis</i>			
<b>taeda</b> .....	.30	.80	2.75
<b>thunbergi</b> .....	.15	.35	1.00
<b>torreyana</b> .....	.60	1.50	5.00

III

DECIDUOUS TREES AND SHRUBS

Plants of Merit (Insufficiently known in the trade):	pkt.	⅙ oz.	¼ oz.	oz.	¼ lb.	lb.
AMELANCHIER <b>canadensis</b> , the true Downy Shadblow (not the usual mixture of various species), snow-white flowers before leaves. Habit erect, a rather stout shrub or small tree, the true seed is scarce.....				.25	.60	2.00
<b>grandiflora</b> , Apple Shadblow ( <i>canadensis</i> x <i>laevis</i> , natural hybrids) intermediate between parents, flowering habit of <i>laevis</i> , buds often purplish pink, tinged pink when open (var. <i>rubescens</i> ). Of our Eastern Amel- chier these hybrids grow the most vigorous, bloom most profusely and set the heaviest fruit. They are ornamentals par excellence.						
Northern seed.....				.25	.60	2.00
<b>laevis</b> , Allegheny Shadblow, Northern strain, the hand- somest Amelanchier in flower with the young purplish foliage and drooping flower racemes expanding at same time. Slender shrub usually not attaining size of <i>canadensis</i> or <i>grandiflora</i> .						
New England seed.....				.40	1.10	3.50
<b>stolonifera hybrids</b> , natural hybrids with <i>laevis</i> and <i>grandiflora</i> , forming round bushes to 4 or even 6 ft. high, flowering habit of <i>laevis</i> with purplish young foliage and large fruit .....				.25	.60	2.00
AMPELOPSIS <b>henryana</b> , Silvervein Creeper, handsome creeper from China with plurplish foliage and white veins.....				.20	.55	1.70 6.00
ARCTOSTAPHYLOS <b>uva-ursi</b> , Bearberry, the very best ground cover plant for light sandy soils, dune-lands, rocky slopes, an excellent ornamental with its shiny foliage. New England seed.....				.20	.75	1.75
AZALEA <b>altaclarensis</b> , Altaclare Azalea, said to be a hybrid between <i>Azalea mollis</i> and our native <i>viscosa</i> , remark- able for its deep yellow flowers.....	.25	.75	2.00			
CORNUS <b>kousa chinensis</b> , the beautiful Chinese Flowering Dogwood, with flowers of cream color, faster growing, more beautiful and hardy than Japanese form.....				.45	1.20	4.00
COTONEASTER <b>adpressa</b> , Creeping Cotoneaster, prostrate more adapted to small rockeries than <i>horizontalis</i> and with larger berries, hardy in New England.....				.25	.60	1.75 6.00
<b>foveolata</b> , little known Cotoneaster of stout, erect habit with large distinctive foliage and black fruit. A fine ornamental, hardy in New England.....				.20	.50	1.50

	pkt.	1/16 oz.	1/4 oz.	oz.	1/4 lb.	lb.
<b>COTONEASTER</b> (continued)						
<b>horizontalis perpusilla</b> , the best of the horizontalis varieties (in our opinion), growing less rampant and more prostrate than horizontalis.....	.20		.35	1.00		
<b>wilsoni</b> (horizontalis wilsoni) Wilson Cotoneaster, the Japanese counterpart of horizontalis, reliably hardy North, growing more densely and compact than horizontalis.....			.25	.60	1.75	6.00
<b>CRATAEGUS crusgalli</b> , Cockspur Hawthorn. We offer this true to name, seed collected from specimen plants bristling with thorns.						
Fresh fruit.....	\$2.50, 10 lbs.; \$19.50, 100 lbs.					.30
Dry berries.....						.25 .90
Clean seed.....						.75 2.50
<b>mollis</b> , Downy Hawthorn, a vigorously growing native Hawthorn with large impressive foliage, white flowers with red disk, large scarlet fruit.						
Dry berries.....						.25 .55
Clean seed.....						.15 .45 1.25
<b>nitida</b> , Glossy Hawthorn—Native, conspicuous by its glossy foliage and heavy crops of brilliant orange scarlet berries retained well into Winter.						
Dry berries.....						.25 .75
Clean seed.....						.35 1.00 3.00
<b>prunifolia</b> , Plumleaf Hawthorn—Native, with clusters of red fruit in great profusion, rivaling crusgalli as ornamental.						
Dry berries.....						.25 .75
Clean seed.....						.25 .65 2.25
<b>punctata</b> , Dotted Hawthorn—Native. As a small shade tree with spreading branches forming an umbrella-like head it is much used for planting in parks and public grounds. Has distinctive foliage quite different from other Hawthorns and dull red berries.						
Fruit.....	10 lbs., \$3.00					.35
Dry berries.....						.25 .75
Clean seed.....						.20 .45 1.50
<b>CYTISUS ratisbonensis</b> , Spring Broom, the first Cytisus to bloom in our collection early in May. Entirely hardy here.....						
.....	10 seeds, .15; 50 seeds, .45					
<b>supinus</b> (capitatus) Bigflower Broom, smothered with blooms in July. This Broom, with its neat compact habit to 3 ft. high of globular shape, deserves the attention of landscape planters and soil conservationists. Plants grow and succeed in the poorest of soil and prove perfectly hardy with us. Transplanting in Spring offers no trouble if tops are cut back severely. 6500 seeds to the ounce.....	.25	.35	1.00	3.00		
<b>DAPHNE, cneorum</b> , Garland Flower. This plant does not seed satisfactorily in low altitudes. Seed offered is collected under great difficulties 5000 ft. above sea level. .50 seeds, .45; 100 seeds, .75; 1000 seeds, \$6.00						
<b>DAVIDIA involucrata</b> , Dove Tree, one of the choicest of flowering trees from China. We are offering this season a strain hardier than usual collected at an altitude between 8000 and 10,000 ft. According to our correspondent trees are found up to 12,000 ft. above sea level. . . .						
.....	10 seeds, \$1.50; 100 seeds, \$10.00					
<b>vilmoriana</b> , Vilmorin's Dove Tree, distinguished from former by minor botanical differences. Seed secured from a strain in cultivation.						
.....	10 seeds, \$1.50; 100 seeds, \$10.00					

	pkt.	1/16 oz.	1/4 oz.	oz.	1/4 lb.	lb.
<b>EUONYMUS patens</b> , Spreading Euonymus, low shrub, very ornamental with its nearly evergreen foliage and orange-red fruit. Good for borders or in Azalea plantings, hardy in New England.....	.20		.60			
<b>planipes</b> , in its erect habit with rather stout branches quite different from other Asiatic Euonymus. In our opinion, it is the most ornamental of all Euonymus due to its moderate size, large foliage and brilliant display of fruit, hardy in New England.....	.25		.75			
<b>FOTHERGILLA major</b> .....	.35		.65	2.00		
<b>monticola</b> . Two very fine and hardy native ornamentals of the Witch Hazel family, with attractive flowers in spring and brilliantly colored foliage in the fall. Monticola is the lesser and as a garden plant, in our opinion, the more valuable of the two.....	.35		.65	2.00		
<b>FRANKLINIA (Gordonia) Alatamaha</b> , the well known Franklinia, America's choicest flowering shrub blooming in late Summer and Fall. 10 seeds, .65; 100 seeds, 5.50						
<b>MALUS baccata</b> , Siberian Crab, dry pomes.....			.25	.60	2.00	
<b>baccata mandshurica</b> , Mandshurian Crab. Two extremely hardy and disease-resistant ornamental Apples doing well even in sandy soil. Fast growing bushy trees with large white flowers and clusters of red or yellow berry like fruit.						
Domestic dry pomes.....			.25	.60	2.00	
<b>theifera</b> . Tea Crab from China, hardy here. Small tree resembling a Cherry tree when in bloom with its branches thickly set with flower-clusters. Flowers white or pinkish. Most remarkable ornamental Crab much recommended for its heavy bloom and easily raised from seed.						
Domestic dry pomes.....		.20	.35	.75	2.50	
Imported clean seed.....		.25	.65	2.00		
<b>RIBES fasciculatus</b> , Japanese Alpine Currant, shrub similar to Ribes alpinum, with persistent foliage and scarlet fruit remaining on the plants over winter, a fine ornamental.....	.15		.30	.90		
<b>ROSA ecae</b> (primula) shrub to 6 ft., hardy in New England, with attractive, fragrant foliage, and an abundance of small flowers (1 1/2 in. across) in May 10 seeds, .20; 100 seeds, 1.50						
<b>SAMBUCUS coerulea</b> , most impressive of native Elderberries, with large flower heads and conspicuous bluish white fruit.....		.15	.30	1.00		
<b>SORBUS scandica</b> , remarkable ornamental from Scandinavia, large shrub or small tree with attractive foliage and red berries. Clean seed.....		.15	.35	1.00		
<b>SYMPLOCOS paniculata</b> (crataegoides), Asiatic Sweetleaf, hardy in New England, ornamental shrub valued for its fragrant white flowers in spring and bright blue berries in fall.						
Imported clean seed.....			.25	.60	2.00	
Domestic dry berries.....			.30	.75	2.50	
<b>VITIS vulpina</b> (odoratissima or riparia), native Riverbank Grape, much planted in Europe on arbors for the bright green foliage and fragrancy of its flowers.....			.35	.75	2.50	

## GENERAL LISTING OF TREES AND SHRUBS

Acorns of Quercus rubra are of surprising vitality, requiring very little moisture for germination.						
We have planted these with good success as late as July, without irrigation.						
Acorns are available for fall, winter and spring planting as far as stocks permit.

SEEDS OF HARDY HERBACEOUS PERENNIALS—FALL AND WINTER PLANTING

**Introduction.**—We prefer not to list cultural varieties (garden forms) under trade names only but endeavor to keep clear, as far as possible, the lineage from which these garden varieties came.

Novelties are developed at one place by one breeder, or by one establishment, and therefore, are necessarily a product, not only of horiticulutral skill by hybridizing or selection but also of climate and soil conditions under which they were produced. Such novelties when grown by the breeder, in the same environment in which they were created stand up for the good points for which they are acclaimed. What these novelties will do in the hands of other growers under climatic and soil conditions different from the originator's is another matter. It is therefore, important that each grower must do his own experimenting with as many varieties, from different sources, as possible, to find out just what can be grown most successfully under his own conditions. As an example, we name the Columbines of which the finest and highest developed long-spurred garden varieties of the coerulea group cannot be grown successfully everywhere, while varieties of the chrysantha group, also long-spurred, are somewhat easier and the vulgaris varieties the easiest of them all and still the latter have all but disappeared from our garden. The horticultural trade, in general, has forgotten the good points for which these Columbines stand up.

**Packets.**—Generous packets are available of all items listed at 15 cents each unless priced otherwise.

<b>AQUILEGIA—Columbines</b> —In preference to the new and more dainty long-spurred Columbines, the old time Columbines of European Gardens ( <i>Aquilegia vulgaris</i> and forms) are all but forgotten. It is our opinion that the almost complete eclipse of these is a loss to our gardens and loss of business to the plant grower. Far ahead of the long-spurred Columbines for ease in cultivation are the vulgaris varieties. They make taller and sturdier plants and are more drought resistant. Seed is easy to germinate and plants adapt themselves far better than the long-spurred to a variety of conditions and many growers and garden enthusiasts who have despaired growing Columbines because of their failure to make the long-spurred succeed will come back to Columbines when they find out how easy the vulgaris varieties are.						
We have grown plants of <i>Aquilegia vulgaris</i> 4 feet and higher on shallow upland soil without fertilizer and irrigation and have even seen stray seedlings establish themselves under these conditions. We can highly recommend the re-introduction of these hardiest of all Columbines to our gardens.						
<b>alpina</b> .....				.20	.30	.50 1.75

<b>DELPHINIUM</b> (continued)					
scopulorum, Rock Larkspur, a native Delphinium from the South-West. Most resistant of all our Delphiniums against wind break and drought, also remarkable for its early repetition, flowering in June and again in early August. Should prove a valuable parent plant in hybridization. Our seed is collected from true parent plants but a possibility of cross polination from nearby double Hybrids exists.....			.20	.30	.50 .95 3.00

## BOOKS

---

### **THE GARDENER'S OMNIBUS.** Edited by E. I. FARRINGTON.

Published under auspices of the Massachusetts Horticultural Society. 39 Books — a complete garden library in one volume — make up the most usable garden book ever published.

*600 contributors • 600 lovely illustrations • Almost 1000 pages* (the equivalent of 3000 or 4000 in an average size book). Over 7000 references in the index. A book by gardeners for gardeners. Quarto (8 $\frac{3}{4}$ " x 10 $\frac{3}{4}$ ") . . . . . **\$3.75**

### **THE MODERN NURSERY.** By Alex Laurie and L. C. Chadwick.

224 pages, 49 illustrations, 21 tables. A reference book for nurserymen describing general nursery management and cultural practices, the different methods of propagation of woody plants and herbaceous perennials. The intricate subject of after-ripening of seed is fully covered. No nurseryman should be without the book, **\$5.00**

### **RHODODENDRON and AZALEAS.** By Clement G. Bowers.

The best book available describing, on 526 pages, 900 species and 2000 varieties, propagation, hybridizing, planting. 28 color plates and 50 plates in black and white, picturing 150 detailed subjects, at . . . . . **\$10.00**

Book prices are postpaid in U. S. A. Terms cash with order.
